In 1996, brothers Mark and Chuck Larson founded Rock River Arms in an 1,800 square foot shop in Cleveland, Illinois. Mark and Chuck together brought over 40 years of varied experience in the firearms manufacturing industry into their new endeavor. Rock River Arms soon developed a reputation as one of the finest builders of hand fitted custom 1911 pistols, and their NM frames and slides set new industry standards for tight tolerances, fit and finish.

The brothers soon turned their manufacturing expertise and attention to detail into producing custom .223 caliber "AR" style rifles. Their initial focus on tightening up tolerances and improving the fit, finish and reliability of their rifles was rewarded as the Rock River Arms NM A2 Rifle quickly gained popularity among high-power shooters.

Today, operating out of a state-of-the-art 23,000 square foot facility in Colona, Illinois, the company is producing a full line of custom rifles, parts and accessories, all built with the same focus on providing the finest fit, finish and function at a reasonable price.

The quality and reliability of Rock River Arms firearms continues to win new admirers. The U.S. Drug Enforcement Agency (DEA) and Federal Bureau of Investigation (FBI) put a variety of different manufacturer's rifles through an exhaustive trials process, and based on those trials awarded Rock River Arms with a 5 year contract as their primary supplier. Since that time Rock River Arms has received additional federal contracts.

Rock River Arms remains committed to continuing to provide it's civilian, law enforcement and military customers with the kind of custom products and services on which it's reputation has been built.

## RRA Warranty Information

Rock River Arms offers the following warranties on its products: Complete LAR Rifles, LAR Pistols, LAR-PDS™ Pistols/Carbines, Upper Halves, and Lower Halves carry a Limited Lifetime Warranty against failure of factory parts and labor. If you have any questions concerning the warranty on your Rock River Arms rifle, pistol, upper half or lower half, please call Rock River Arms for clarification.

## RRA Order/Return Information

Once submitted, all orders are final. Changes requested after order submission, including configuration, subs, etc., will result in a reprocessing charge. Complete rifles shown with standard accessory package. Please see our website for current Lead Time and Delivery Estimates.

**RETURNS:** All returned and/or refused products are subject to a 20% restocking fee. The restocking fee will not apply if the return is the result of an error by Rock River Arms. Shipping fees are not refundable. All returns must be preapproved by RRA, must be issued a return authorization (RMA), and must be returned in new condition within 30 days of order fulfillment. Please contact RRA Sales/Customer Service toll free at 866-980-7625 for any additional information and/or return authorization. All orders must comply with all applicable Federal, State and Local laws.

**All prices, configurations and specifications are subject to change without notice.**

## RRA Rifle/Upper Half Identification

We are now laser engraving Rock River Arms Inc. on all of our upper receivers.

All of our factory-built complete upper halves and complete rifles are engraved with Rock River Arms' trademarked logo.

Since 2010, most RRA barrels are caliber and twist rate marked on the forward portion of the barrel.

## BAN COMPLIANT MODELS

After the federal Assault Weapon Ban (AWB) of 1994 expired in 2004, several states enacted their own bans. In addition, several other states have recently enacted new bans or modified existing bans. In many cases RRA can provide ban-compliant products, but may not be able to for some markets. Ban compliant variations from the base models may include pinned and welded muzzle brakes or no muzzle device, gas blocks or front sight bases without bayonet lugs, and non-collapsible stocks.

### What is a .223 Wylde Chamber?

The .223 Wylde chamber was designed as a match chambering for semi-automatic rifles. It will accommodate both .223 Rem and 5.56 NATO ammunition. It is relieved in the case body to aid in extraction and features a shorter throat for improved accuracy.

## Predator Pursuit™ or Varmint Rifle?

The Predator Pursuit Rifle has all the great features of our Varmint rifle, but with a 20 inch Heavy Match Stainless Steel Barrel, the same barrel used on our NM rifles, in place of the Varmint rifle's Bull Barrel. The result is a highly accurate rifle that's over one pound lighter than the 20 inch Varmint Rifle.

ROCK RIVER ARMS PISTON DRIVEN SYSTEM

## Rock River Arms LAR-PDS® Pistol Piston Driven System

The **RRA LAR-PDS® Pistol** is the first of a new generation of firearms employing RRA's patent-pending **Piston Driven System (PDS)**. Featuring a purpose-designed bolt carrier, an adjustable gas piston and an over-the-barrel spring and guide rod arrangement, the LAR-PDS® is able to completely do away with the traditional recoil system associated with AR-style firearms, making for an extremely versatile weapon platform. Several exciting new models are scheduled for release in 2013, as well as specialized parts and accessories.

**Full Length Top Mounting Rail** The LAR-PDS® Pistol's full length top mounting rail, from the rear of the receiver to the regulator housing, allows for the flexible placement of numerous optics, lights, lasers and other accessories.

**Two Position Adjustable Regulator**

The LAR-PDS® Pistol's two position adjustable regulator is conveniently positioned on the right side of the regulator housing.

**Folding Ambidextrous Non-Reciprocating Charging Handles**

The folding ambidextrous, non-reciprocating charging handles, shown above in the extended position, may be used singly or in unison to charge the LAR-PDS® Pistol.

**Handguard with Operator Safety Flange**

With integral Operator Safety Flange to help prevent support-hand movement/slippage towards the muzzle.

**Rear Sling or Accessory Mounting Rail**

The LAR-PDS® Pistol features a MS1913 rail on the rear receiver adapter. The design of the upper receiver and guide rod base prevents gas blow-by to the back of the receiver.

**LAR-PDS® Aluminum Tri-Rail Handguard**

The LAR-PDS® Pistol is now available with the RRA Aluminum Tri-Rail Handguard for mounting lights, lasers and other accessories.

**Full Length Top Mounting Rail** The LAR-PDS® Carbine's full length top mounting rail, from the rear of the receiver to the regulator housing, allows for the flexible placement of numerous optics, lights, lasers and other accessories.

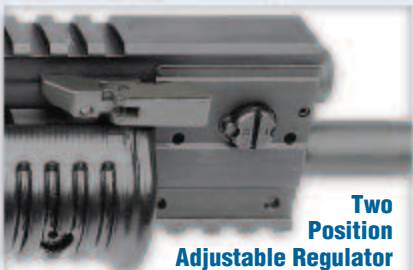

**Side-Folding Stock Adaptor**

The LAR-PDS® operating system allows for the elimination of the traditional "AR" receiver extension (containing the action spring and buffer) behind the lower receiver. The side-folding stock adaptor allows for the use of any "CAR style" stock, with adaptors for other types of stocks already planned.

**RRA LAR-PDS® Side-Folding Stock Kit**

Kit contains RRA Tactical CAR Stock, 6-Position PDS Receiver Extension with threaded end cap and internal storage, and Side Folding Hinge/Adapter unit. This kit is intended ONLY for use in converting legally registered LAR-PDS® pistols to stocked SBRs, and a copy of the Form 1 registration is required to complete the purchase. NOTE: This kit is not compatible with other bufferless platforms due to the means of attachment to the proprietary LAR-PDS® lower receiver.

**RRA LAR-8® Parts and Accessories Compatibility:** Unlike AR-15 type rifles which share a common platform and general commonality of component parts, pieces and accessories, .308 caliber AR platforms are all uniquely designed by their manufacturers and do not share common component parts, pieces, and accessories. While some components MAY interchange between models/platforms made by different manufacturers, this commonality is by chance, not by design. Parts, pieces, and accessories manufactured by RRA and its vendors for the RRA LAR-8® platform are only to be used on the RRA LAR-8® and NOT on any other model/platform made by any other manufacturer, no matter how similar the rifles may be in appearance. Additionally, component parts, pieces, and accessories manufactured specifically for any other model/platform should never be used on the RRA LAR-8®. To do so risks damage to the rifle and injury or death to the shooter/bystanders. Any questions concerning the suitability of parts, pieces and accessories for the RRA LAR-8® should be directed to the RRA Sales/Customer Service Department at 866-980-7625 or info@rockriverarms.com.

### The RRA LAR-8® uses a unique receiver thread length and barrel nut.

No barrel nut (either separate or as part of a tubular handguard or quad rail handguard) except those made specifically for the RRA LAR-8® should ever be used on an RRA LAR-8® rifle or upper half. While some other barrel nuts may thread onto the upper receiver, the depth of thread is incorrect and use of such a barrel nut not specifically made for use with the LAR-8® (and identified as such by RRA) may expose the shooter to risk of injury or death.

## 9MM CONVERSION INFO

In addition to the upper half, certain other parts are required to complete the 9mm conversion. A lower half with standard (non match/2-stage) internal parts is required, and a 9mm hammer must be installed in place of the .223 hammer. The 9mm magwell conversion block (which uses modified UZI magazines or Colt-style SMG magazines) is also required, if you are not using a dedicated RRA LAR-9<sup>®</sup> 9mm lower half with integral magwell. If using a CAR length receiver extension (as used in RRA collapsible CAR stocks as well as Entry stocks), the 9mm buffer replaces the CAR buffer. If using the standard receiver extension (as used in A1/A2 stocks and RRA non-collapsible CAR stocks), installation of the 9mm stock spacer, CAR action spring, and 9mm buffer is required. If you have any questions about 9mm conversions, please call Rock River Arms.

# EOTech HWS

EOTech 553

Holographic Weapon Sights by L3, instantly visible in any light, for true two eyes open shooting, with 20 brightness settings. Battle proven to withstand the abuse that any harsh environment, high powered weapon platform, or military mission can dish out.

**EOTech 512** The most popular model, perfect for those that want the best without the need for night vision compatibility.

**Uses two "AA" Batteries** . . . . . AR3781 **\$459**

**EOTech 552 - Night Vision Compatible Model**

**Uses two "AA" Batteries** . . . . . AR3783 **\$569**

**EOTech 553 - with Dual A.R.M.S. Throw Levers**

Pictured above, mounts directly to A4 upper and when so mounted places dot/ring at same height as other EOTechs on the Dominator2.

**Uses two Lithium Batteries.** . . . . . AR3784 **\$749**

# EOTech XPS2-0

The shortest and lightest EOTech yet, runs on a single 123 battery, requires at most 2 3/4 inches of rail space, leaving more room for iron sights or NV mount.

**AR3788** . . . . . **\$539**

# New Improved EOTech G33.STS Magnifier

Shorter and lighter than the G23, with new quick Switch to Side (STS) mount for faster transitions from 3x to 1x, larger field of view, adjustable diopter for improved, more precise focusing. Also has locking, quick detach lever for easy attachment/removal of optic and mount.

Magnifier aligns perfectly with standard height sights and comes with a 7mm riser to accommodate the 7mm raised sights.
