Product Summary

Plus Strike

Product Description

As a lightweight EDC spring knife, the Böker Plus Strike rounds out our broad range of automatic knives. The slender grip is supported by steel liners that feature textured, lightweight, milled aluminum scales. Deep jimping on the pronounced thumb groove facilitate a secure hand position. The smooth action push lock

prevents accidental deployment and additionally secures the closed knife. The tanto blade with partial serration is made from AUS-8, while all the hardware features a black coating.
