Product Summary

Alpine

Product Description

The Gemtech ALPINE is a user-servicable rimfire suppressor that is lightweight and requires no special tools to disassemble. Easy to take down and clean, it features high decible reduction, unique-to-Gemtech "Caged-K" baffles, which provide the strength needed for disassembly.

This allows the ALPINE to still offer the outstanding performance of the K-type baffles but without the weakness of an unprotected K as seen in fragile competing designs. Made of tough 7075 aerograde aluminum with non-galling titanium thread area, the ALPINE also features the distinctive and functional Gemtech grip surface on the rear which adds a distinctive, elegant touch to this premium suppressor.

- Caliber: .22LR, .22 WMR, .17 HMR, .17 HM2 - Overall Length:5.6" - Diameter: 1" - Weight: 3.7 oz - Materials: Aluminum, Titanium - Finish: Black Matte Hardcoat Anodize
