## Product Summary

Lightning

## Product Description

The knife is 100% usable. The handle is black powder coated aluminum and has a textured surface which helps ensure a good grip. The blade is satin finished stainless steel and marked "LIGHTNING" on the top. The firing button is mounted on the side, making the Lightning slim and easy to carry with the tip-down pocket clip. The knife doesn't need a safety since the button requires some force to fire the blade.
