Product Summary

Octane 9

Product Description

The Octane line of suppressors offer industry leading sound reduction in all major combat pistol calibers, sub machineguns, and subsonic rifles.]

The Octane line has a unique design for easy disassembly and user serviceability.

The CTA baffle stack makes it the easiest centerfire pistol silencer on the market to clean. The unique click together design keeps debris from reaching the tube of the suppressor, which allows it to be disassembled with ease. User serviceability becomes very important when shooting full auto on a submachine gun or shooting lead bullets.

The Octane line features interchangeable pistons which gives you caliber versatility as well. It pairs with everything.
