Features:

- Patent pending polymer fire control housing holds all the fire control components in their proper dimensional relationships, reduces weight significantly, and helps reduce recoil. - Patented friction reducing cam is the next generation design in fire control systems with an optimized cam that results in a smooth, non-stacking trigger pull. - Monolithic frame which supports cylinder and barrel, is made from aerospace grade, 7000 series aluminum in 22 LR, 22 WMRF and 38 Special LCR models. The powerful LCR-357 model is made from blackened 400 series stainless steel. - High-Strength stainless steel cylinder is extensively fluted (reducing weight) and features an Ionbond Diamondblack® finish for excellent durability. - Grip Peg allows a variety of grip styles to be installed, leaving ample room for recoil cushioning. Standard model has a Hogue®; Tamer®; grip, which is highly effective at reducing felt recoil - LCR also available with Crimson Trace®; Lasergrips®;. - LCRx®; model features an external hammer that allows it to be fired in single-action mode. - Crimson Trace®; models allow for fast and positive target acquisition, and offer the advantage of a laser sighting system in a more compact grip. Note: Some speed loaders may not be compatible with Crimson Trace®; models. - Also includes soft case.
