Product Description

Personal Protection You Can Trust.

The ultimate defense round delivers exceptional on-target energy, maximum weight retention and optimal expansion at all effective distances.

Innovation

V-Crown™ Internal Ballistics

Exemplifying the process of perfecting materials and design for maximum controlled performance, innovative SIG V-Crown cartridges utilize a perfect storm of features from low-flash propellant to a cannellured shank, resulting in maximum weight retention with reliable ballistic performance.

- V-shaped jacket skives and scores provide controlled, uniform expansion.
- Stacked hollow point bullet design with additional hollow point cavity.
- Unique toothed cannellure halfway up shank ensures maximum weight retention and terminal expansion.
- Nickel cases provide enhanced lubricity, superior

corrosion resistance, and reliable feeding and extraction. - Low flash propellant
