Product Summary

Saker ASR 556

Product Description

The newly redesigned Saker® ASR sets the industry standard for durability and modularity at an affordable price. The Saker ASR was designed for use with bolt action, semi-auto, and full-auto firearms. In addition to its performance, the Saker ASR’s design allows for maximum user adaptability and convenience - ASR® (Active Spring Retention) Mount technology facilitates attachment via a variety of different flash hiders and muzzle brakes with an additional option of direct thread mounting.
